Cambodia-China University of Technology and Science

Bachelor of Computer Science — 2023- Present
Cambodia Academy of Digital Technology(CADT)

Graduate High School — 2021-2022
High School Diploma

WORK EXPERIENCE

E-Robot — AUGUEST-2023- JUNE-2024
Graphic Designer
- **Design posters:** I design all kinds of posters of e-robot, making sure they look good and communicate the right message.
- **Create quotes:** I create designs that feature inspiring or promotional quotes, making them visually appealing.
- **Do anything related to posters:** I take care of all tasks related to posters, from concept to production.

Front-End Developer – School PROJECT — AUGUST-2024-SEP-2023
Parking Management System: Ticket Controller Landing Page
- Designed and developed a responsive and interactive landing page for a ticket controller system using Laravel and Tailwind CSS.
- Focused on creating a clean and user-friendly interface to improve user experience and accessibility.
- Collaborated with back-end developers to ensure seamless functionality and data flow between the front-end and database.

E-learning for grade 12- School Project — DECEMBER-2024-JAN-2025
Flutter + dart
- Developed a mobile app using Flutter and Dart to provide educational resources and tools for Grade 12 students.
- Implemented offline features for managing content (Science, Social Science, Tips) and grade calculation.
- Ensured the app is user-friendly, scalable, and provides essential study tools without the need for a back-end.
- Collaborated on interactive features like quizzes, progress dashboards, and resource sharing.
